

McKay Healing Arts  
is pleased to welcome

David Key, Sound Artist, M. Mus.

David is accepting appointments for individual and group Sound Medicine sessions.

During these sessions, various instruments and voice are used to create sounds that clear negative energy, align and open energy centers in the body, and promote a deep meditative state. If you have difficulty letting go of stress, or if you have trouble meditating on your own, the gift of sound could be the medicine you need.
